

Brian Eames
Manager of Large Export Projects
Canada Mortgage and Housing Corporation

Brian Eames is the Manager of Large Export Projects at Canada Mortgage and Housing Corporation (CMHC), Canada's national housing agency. Brian works with a team of 28 trade consultants and technical staff located across Canada who assist the Canadian housing industry to expand and diversify their export of housing products and systems. The team's highest priority is the U.S. market and a major focus has been the green building sector.

Brian has over 30 years of experience in housing and construction, both in the public and private sectors. His work with CMHC has included sustainability research, industry training, demonstration programs, and 5 years in export development. His private sector experience includes twenty years as an associate with one of the largest architectural firms in Ottawa. Brian is a member of the Ontario Association of Architects.
